Congratulations
on becoming a

You've waited your whole school
life for this moment and now
you're officially a SENIOR!

SENIOR
seniors by Hudson's
delivers photography that's
all about you!

One of the best parts of your senior year is having your senior portraits taken by a professional photographer that is solely dedicated to one thing... capturing who you are! Yeah, you could have your neighbor or a friend take a few snap shots with their "fancy" new digital camera, but is that really capturing who you are? That's a lot like eating dinner at McDonalds before senior prom!

Being a senior only comes once in a lifetime (LOL well, hopefully) and you deserve the quality and uniqueness of having a real professional create some fun and custom senior portraits for you, not some amateur pretending to know what the heck they are doing!

Here are some cool perks you get just for choosing us!

- Custom sessions with indoor, outdoor & on-location looks
- Free slideshow of your images for Facebook & your smart phone
- Custom albums, metal wall portraits, and more stuff no one else can get!

Seniors by Hudson's
is considered one of the
